MINISTER

J. E. OBERHOLTZER,
DEPUTY MINISTER

EDMONTON ALBERTA CANADA

PRINTED BY A. SHNITKA, QUEEN'S PRINTER, EDMONTON

Edmonton, Alberta,
20 March, 1956.

This Directory of Alberta manufacturers and Alberta manufactured products is presented to you with the compliments of the Department of Industries and Labour.

Developments in our province over the past 10 years have attracted world wide attention. Alberta is becoming industrialized at a rapid rate as evidenced by the increasing number of new industrial firms whose names are appearing in this Directory.

The development of Alberta's vast natural resources has led to the establishment of a wide variety of new processes and products which provide a firm foundation for our future economic progress.

We are confident that this publication will stimulate your interest in Alberta and we invite your enquiries.

Hon. R. Reierson, Minister,
Department of Industries and Labour

SECTION 1: ALBERTA MANUFACTURING FIRMS 1

In this section the manufacturing firms of the province are listed. Types of products are given, and approximate size of firm indicated by a simple letter code. New firms which began operations subsequent to preparation of original lists are shown in an addendum on page 70.

SECTION 2: ALBERTA MADE PRODUCTS 73

Products of manufacturing plants and the names and addresses of the firms producing the specific product are listed alphabetically. Actual postal address can be obtained by referring to Section 1.

SECTION 3: IMPORTS: CLEARANCES AT ALBERTA CUSTOMS' PORTS - 1954 161

Total value of goods cleared at Alberta customs' stations in 1954 was $149,630,235. On the assumption that many of these products might be manufactured in Alberta a selected sample list, showing quantity and value, is presented to interest potential manufacturers. The list does NOT include quantity and value of products manufactured or brought in from other parts of Canada. Complete lists of products cleared at customs' ports are available on request.

SECTION 4: QUANTITY AND VALUE OF ALBERTA MANUFACTURES - 1954 185

When three or more firms produce a specific type of goods it is permissible to publish figures showing quantity and value. The list of products in this section is more detailed than that shown in Section 2, but volume figures are being withheld on many items.

SECTION 5: MATERIALS USED IN ALBERTA MANUFACTURES 205

Subject to the qualifications noted above, this section contains information concerning the volume of consumption of raw and semi-processed materials by local manufacturing plants.

Sections 3, 4 and 5, have been prepared to stimulate interest in consumption of locally manufactured products, or, alternatively, to stimulate local production for use in other manufacturing plants or by the public.

ALPHABETICAL LIST OF PRODUCTS
MANUFACTURED IN ALBERTA
1954

The following list is more detailed than that found in the directory of firms and has been compiled to show, wherever possible, the dollar volume of products manufactured. The Statistics Act precludes the publication of figures, either quantity or value, if the specific product is manufactured by less than three firms. An asterisk in the value column indicates items affected by this regulation. Quantities and valuations shown are minimum, since not all firms report in detail.

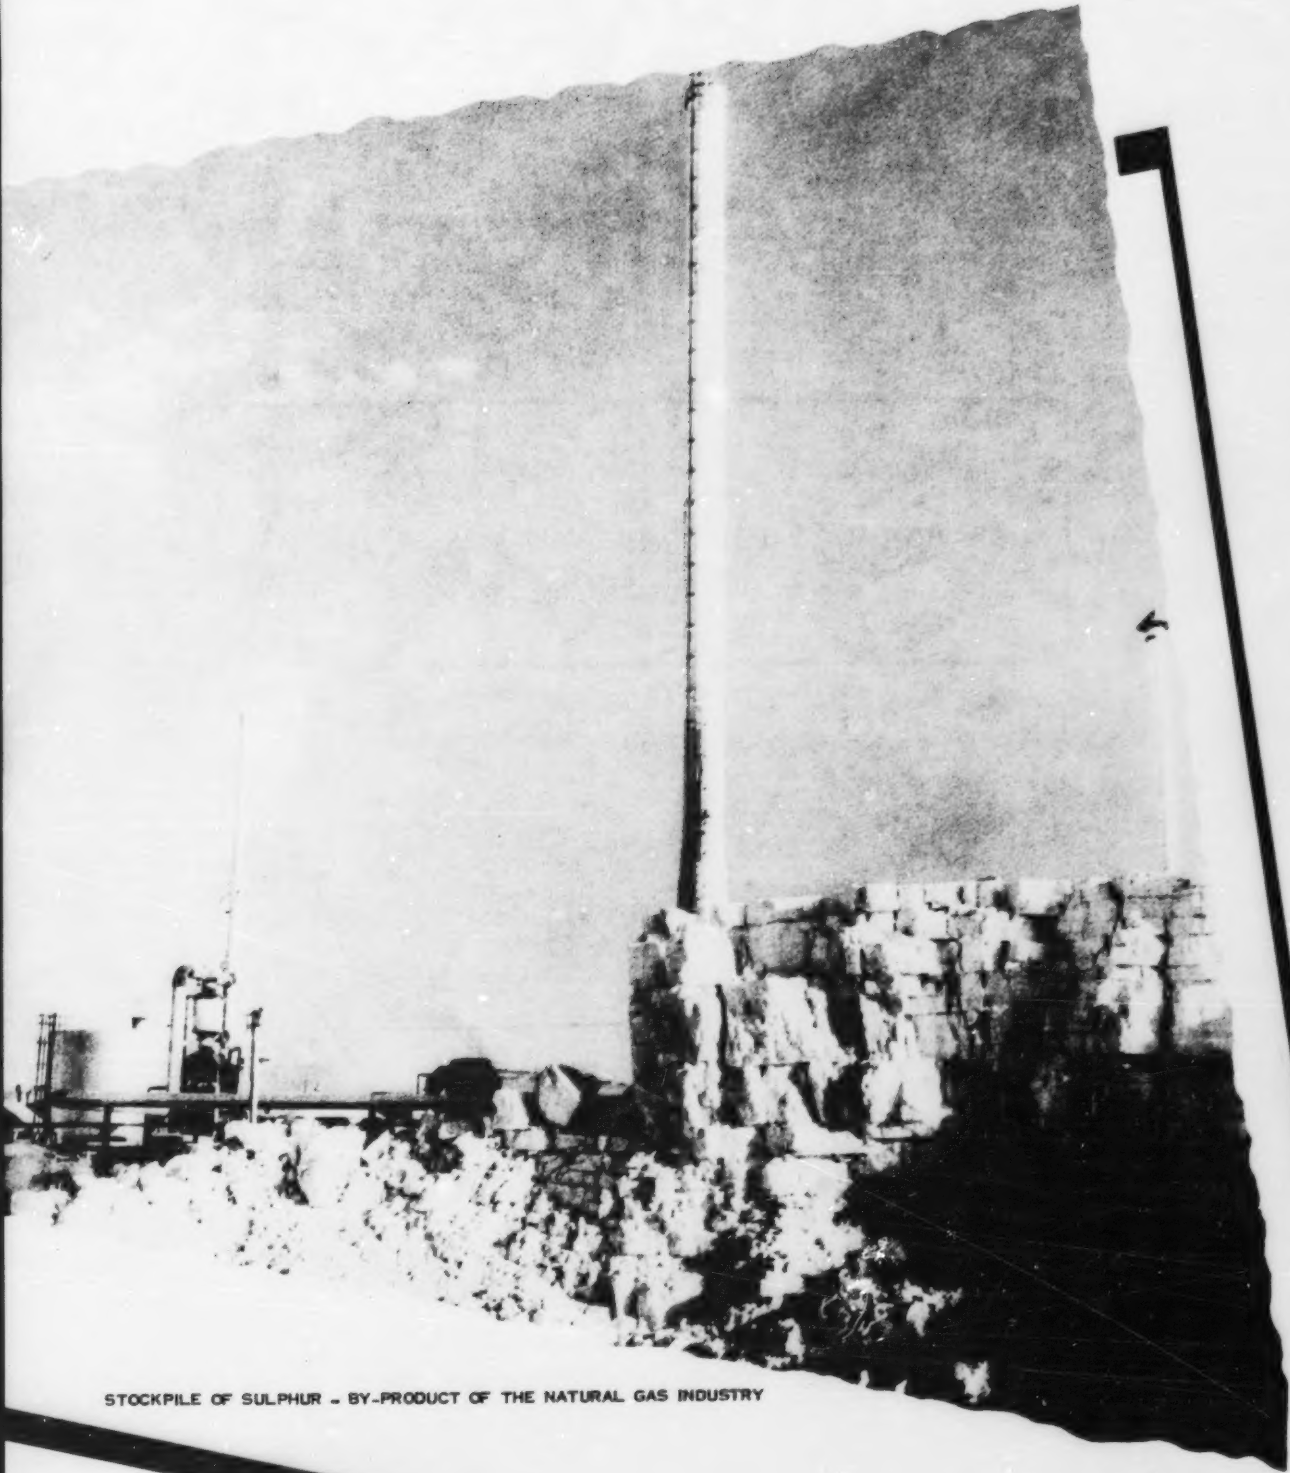
QUANTITY AND VALUE OF MATERIALS AND SUPPLIES USED BY ALBERTA MANUFACTURING FIRMS 1954



STOCKPILE OF SULPHUR - BY-PRODUCT OF THE NATURAL GAS INDUSTRY

ALPHABETICAL LIST OF MATERIALS AND SUPPLIES

USED BY MANUFACTURING FIRMS OF ALBERTA

1954

The following is a list of materials and supplies used by Alberta manufacturing firms in 1954. The list is not complete. Some items of small value have been omitted. Some firms failed to submit detailed lists of materials used. The figures presented as to quantity and value will therefore be, in every case, minimum figures.

The Statistics Act precludes the publication of figures, either quantity or value, if the specific item is used by less than three firms. An asterisk in the value column indicates items affected by this regulation.
